

# Enhancer Panel

Customer  
Oriented,  
Solution  
Driven

The Air Liquide Enhancer Panel is the perfect dispense solution for outlets where 60/40 and 30/70 blends of mixed gas are required in medium or large quantities. With a very low rental cost and supplied configured for use with large cylinders, the Enhancer Panel provides economies of scale for your business with maximum convenience.

## Giving you Choice and Control

Using the Air Liquide Enhancer Panel couldn't be easier. Large cylinders are to be used with the Enhancer Panel and hence cylinder changes are minimised.

The Enhancer Panel provides outlets for 30/70 mixed gas, 60/40 mixed gas and 100% CO<sub>2</sub> for use with continental lagers.

Pressures of each blend can be monitored and adjusted using the panel and isolated in case of an emergency.

### ● Simplified Purchasing

Using large cylinders with an Air Liquide Enhancer Panel means you no longer have the complication of having to estimate how much of each blend you will need to buy. Buying only two types of gas product to make three means one type less to deal with.

### ● Less Cylinder Changing

Using large cylinders means less changes, less hassle and fewer interruptions to service, helping you use your staff more efficiently - keeping the beer, and the profits, flowing.

### ● You Can't Go Wrong!

As there are only two types of cylinder, Mixed Gas and CO<sub>2</sub>, with different connectors, the potential to connect the wrong cylinder is eliminated.

## Dependable Quality and Service

Air Liquide are a world leader in the supply of gases to the industrial, medical and leisure industries and are members of the British Compressed Gases Association.

We have the knowledge and experience to provide you with consistent quality food grade gases. We are also qualified to provide technical support on health and safety and many other areas with regards to your cellar gas.

## A Dispense Solution to fit with your Business

The Air Liquide Enhancer Panel is just one of the products from a comprehensive range of products and services. Air Liquide offer a range of solutions that can fit your business as it grows. Please contact us to discuss your needs further.
